BAGPIPE TUTORIALS

Pipe Major Bill Robertson,
ex The Royal Scots

Lesson Pointers:

Overall:

As in most Reels relax, have good clear execution, avoid over-pointing, and have controlled downbeats and upbeats in each full beat. The high G grace note in short note tachums from C as in first part bars one and five, and similarly elsewhere, must be heard clearly, not too clipped.

The G, D, E grace note combinations such as in bars one and two first part and throughout this reel must have good clarity of execution as explained in the video and more detailed audio.

The fourth part triplets as in bars two and six are shown in the music with a short note D leading in so that you make that note clearly enough before executing the rather open doubling on D followed by the strike still on D in the triplet.
